# AD3E-ORAL

## Composition

### Each one L. contains:

Vitamin A (Retinyl palmitate)	100 000 000 u.i
Vitamin D3 (Cholecalciferol)	20 000 000 u.i
Vitamin E (all-rac- $\alpha$ tocopheryl acetate)	20 000 mg
Sorbitol 70%	50 000 mg
1-2 propandiol	20 000 mg
Sorbic Acid	1 500 mg
B.H.T	250 mg
Emulsifier	150.000 mg
Water (carrier)	up to 1 L

### ✚ Type of product:

Complementary feed

### ✚ Indication:

Prevention of deficiencies of vitamins A, D3, E in poultry.  
With sorbitol activity.

### ✚ Dosage and administration:

**Poultry:** 1 liter in 2000-4000 liter of daily drinking water, for 3-5 days. Repeat if necessary.  
Individual needs may vary, depending on the breed, activity and age.  
Complete the daily ration with complete feeding.  
Shake before use.

### ✚ Storage:

Store in a cool and dry place (20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use.

### ✚ Expiry

24 months from production date

### ✚ Product form:

Liquid

### ✚ Packaging

1 litre plastic bottle

Produced in Italy

This product is not a medicinal product, and is not intended for human use  
Product composition intended for EXTRA-EU market

# AD3E-L ORAL

## Composition

### Each one L. contains:

Vitamin A (Retinyl palmitate)	50.000.000 u.i
Vitamin D3 (Cholecalciferol)	10.000.000 u.i
Vitamin E (all-rac- $\alpha$ tocopheryl acetate)	10.000 mg
Sorbitol 70%	80.000 mg
1-2 propandyol	20.000 mg
Sorbic Acid	1.500 mg
B.H.T	250 mg
Emulsifier	75.000 mg
Water (carrier)	up to 1 L

### ✚ Type of product:

Complementary feed

### ✚ Indication:

Prevention of deficiencies of vitamins A, D3, E in poultry.  
With sorbitol activity.

### ✚ Dosage and administration:

# SELEN E 50

## Composition

### Each one L. contains:

Vitamin E (all-rac- $\alpha$ tocopheryl acetate)	50.000 mg
Vitamin B1 (Thiamine hydrochloride)	800 mg
Vitamin B2 (Riboflavine-5-sodium phosphate)	800 mg
Vitamin B6 (Pyridoxine hydrochloride)	800 mg
Selenium (Sodium selenite)	500 mg
Emulsifier	110.00 mg
Water (carrier)	up to 1 L

### ↓ Type of product:

Complementary feed

### ↓ Indication:

Prevention of vitamin B deficiencies in poultry.  
Contains antioxidants to support the immune system.

### ↓ Dosage and administration:

**Poultry:** 50-70 ml in 100 liters of daily drinking water, for 3-5 days. Repeat if necessary.

Individual needs may vary, depending on the breed, activity and age.

Complete the daily ration with complete feeding.

Shake before use.

### ↓ Storage:

## Composition

### Each one L. contains:

Vitamin A (Retinyl palmitate)	2.000.000 u.i
Vitamin D3 (Cholecalciferol)	2.000 u.i
Vitamin E (all-rac- $\alpha$ tocopheryl acetate)	650 mg
Vitamin PP	3.500 mg
Vitamin B1 (Thiamine hydrochloride)	420 mg
Vitamin B2 (Riboflavine-5-sodium phosphate)	420 mg
Vitamin B12 (Cyanocobalamin)	1,8 mg
Vitamin B6 (Piridoxine hydrochloride)	300 mg
Acid D-Pantotenic (Calcium D.pantothenate)	1.500 mg
Coline chloride	21.500 mg
L-Glycine	5.000 mg
L-Lysine	5.000 mg
D,L-Methionine	1.300 mg
Inositol	330 mg
Water (carrier)	up to 1L

### Ψ Type of product:

Complementary feed

### Ψ Indication:

Useful during periods of peak production, and in case of stress.

### Ψ Dosage and administration:

**Poultry:** 1 ml per 4 liter of drinking water for 5-7 days.

Repeat if necessary.

Individual needs may vary, depending on the breed, activity and age.

Complete the daily ration with complete feeding.

Shake before use.

# HEPATEC

## Composition

### Each one L. contains:

Vitamin PP	20.000 mg
L-Carnitine	25.000 mg
Betaine	10.000 mg
L-lysine	15.000 mg
D,L-Methionine	10.000 mg
Magnesium Sulphate	5.000 mg
Potassium Citrate	10.000 mg
Sodium Citrate	2.000 mg
Sorbitol	50.000 mg
Water (Carrier)	up to 1 L

### Ψ Type of product:

Complementary feed

### Ψ Indication:

Support the liver function, improves feed metabolism and utilization which results in better feed conversion, growth and productivity. With sorbitol activity.

### Ψ Dosage and administration:

**Poultry:** 1 ml per 4 liter of drinking water for 5-7 days.

Repeat if necessary.

Individual needs may vary, depending on the breed, activity and age.

Complete the daily ration with complete feeding.

Shake before use.

### Ψ Storage:

Store in a cool and dry place ( 20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use.

## Composition

### Each one ml contains:

Vitamin D3 (Cholecalciferol)	40.000 ui
Calcium (Calcium chloride)	3 mg
Phosphorus (Phosphoric acid)	10 mg
Manganese (Manganese sulphate monohydrate)	1.5 mg
Propylene glycol	5 mg
Water (carrier)	up to 1 ml

### Ψ Type of product:

Complementary feed

### Ψ Indication:

Source of vitamin D3, calcium, phosphorus, manganese for poultry

### Ψ Dosage and administration:

**Poultry:** 1 liter in 5000 liter of drinking water for 3-5 days.

Repeat if necessary.

Individual needs may vary, depending on the breed, activity and age.

Complete the daily ration with complete feeding.

Shake before use.

### Ψ Storage:

Store in a cool and dry place (20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use.

# VIT K3

## Composition

### Each one Kg contains:

Vitamin K3 250 g  
(Menadione Sodium Bisulphite 51.5%)  
(Contains of 128.75 g menadione)

Dextrose (carrier) 750 g

### ↓ Type of product:

Complementary feed

### ↓ Indication:

Prevent the vitamin K3 deficiency in poultry

### ↓ Dosage and administration:

**Poultry:** 200-400 g per 1000 liter of drinking water for 3-5 days. Repeat if necessary.

Individual needs may vary, depending on the breed, activity and age.

Complete the daily ration with complete feeding.

Shake before use.

### ↓ Storage:

Store in a cool and dry place ( 20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use.

### ↓ Expiry

This product is not a medicinal product, and is not intended for human use

Product composition intended for EXTRA-EU market

# SUPER VITALYT

## Composition

### Each one Kg contains:

Dry yeast extract (Saccharomyces cerevisiae) (Beta glucans 25% + Mannans oligosaccharide 20%)	24 000mg
Vitamin A (Retinyl acetate)	3 000 000 IU
Vitamin D3 (Cholecalciferol)	600 000 IU
Vitamin C (Ascorbic acid)	15 000 mg
Vitamin E (all-rac- $\alpha$ tocopheryl acetate)	5 000 mg
Vitamin K3 (Menadione sodium bisulphite, 51% Menadione)	1 000 mg
Vitamin B1 (Thiamine mononitrate)	3 000 mg
Vitamin B2 (Riboflavin-5.-sodium phosphate)	2 500 mg
Vitamin B12 (Cyanocobalamin)	10 mg
Vitamin B6 (Pyridoxine hydrochloride)	1 500 mg
Panthenic Acid (Calcium D-pantothenate 98%)	8 000 mg
Niacin	23 000 mg
Folic acid	800 mg
Vitamin H (Biotin)	30 mg
Sodium (Sodium chloride 39%)	2 400 mg
Manganese (Manganese sulphate 30%)	3 000 mg
Zinc (Zinc sulphate 35%)	12 000 mg
Copper (Copper sulphate 25%)	5 000 mg
Iodine (Potassium iodide 69%)	6 000 mg
Magnesium (Magnesium sulphate 20%)	18 000 mg
L-Lysine Chloridrate (98%)	3 500 mg
D,L-Methionine (99%)	3 000 mg
Dextrose (carrier)	up to 1 Kg

### ↓ Type of product:

Complementary feed

### ↓ Indication:

Used to supply the normal feeding in poultry by vitamins, minerals, lysine and Methionine.

### ↓ Dosage and administration:

**Poultry:** 1 kg per 750-1000 liter of drinking water, for 3-5 days. Repeat if necessary.

Individual needs may vary, depending on the breed, activity and age.

Complete the daily ration with complete feeding. Shake before use.

### ↓ Storage:

Store in a cool and dry place (20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use.

Citric acid (91%)	100 g
Potassium Iodide (23%)	1 g
Ortophosphoric Acid (85%)	100 g
Glycerol	50 g
Propionic acid	100 g
Saccharomyces cerevisiae dry extract	100 g
(Beta glucan 25% + Mannan oligosaccharide 20%)	
Water (carrier)	up to 1 L

### Ψ Type of product:

Complementary feed

### Ψ Indication:

Acidifier agent to decrease the PH of poultry gut.

### Ψ Dosage and administration:

**Poultry:** 1-2 ml per litre of drinking water or 2 litre per ton feed. , for 3-5 days. Repeat if necessary.  
Individual needs may vary, depending on the breed, activity and age.  
Complete the daily ration with complete feeding.  
Shake before use.

### Ψ Storage:

Store in a cool and dry place ( 20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use.

### Ψ Expiry

24 months from production date

### Ψ Product form:

Liquid

### Ψ Packaging

1 litre plastic bottle

Produced in Italy

This product is not a medicinal product, and is not intended for human use  
Product composition intended for EXTRA-EU market

# MIXFORT

## Composition

### Each one ml contains:

Sorbitol	100 mg
L-Carnitine hydrochloride	25 mg
D,L-Methionine	10 mg
Choline Chloride	18.75 mg
Betaine hydrochloride	10 mg
Vitamin B2 (Riboflavin-5-sodium phosphate)	0,02 mg
Water (carrier)	up to 1 ml

### ↓ Type of product:

Complementary feed

### ↓ Indication:

Used for improvement and support to the lipid metabolism.

### ↓ Dosage and administration:

**Poultry:** 1 lt. in 1000 lt. of daily drinking water, for 3-5 days. Repeat if necessary.

Individual needs may vary, depending on the breed, activity and age.

Complete the daily ration with complete feeding. Shake before use.

### ↓ Storage:

Store in a cool and dry place (20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use.

### ↓ Expiry

24 months from production date

### ↓ Product form:

# INTRAMIN ORAL

## Composition

### Each one L. contains:

Calcium (Calcium Chloride)	30.500 mg
Phosphorus (Phosphoric acid)	60.000 mg
Iron (Iron Chloride)	5.500 mg
Cobalt (Cobalt Sulphate)	38 mg
Copper (Copper Chloride)	1.000 mg
Manganese (Manganese Chloride)	4.500 mg
Zinc (Zinc Chloride)	4.800 mg
Potassium (Potassium Chloride)	8.000 mg
Citric Acid	50.000 mg
Water (carrier)	up to 1 L

### ✚ Type of product:

Complementary feed

### ✚ Indication:

Prevention of mineral deficiencies in poultry

### ✚ Dosage and administration:

**Poultry:** 1 liter in 500-1000 liter of daily drinking water, for 5-7 days. Repeat if necessary.

Individual needs may vary, depending on the breed, activity and age.

Complete the daily ration with complete feeding. Shake before use.

### ✚ Storage:

Store in a cool and dry place (20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use.

# AMINO VIT FORTE

## Composition

### Each one L. contains:

Vit A (Retinyl palmitate)	10.000.000 I.U.
Vit D3 (Cholecalciferol)	3.000.000 I.U.
Vit E (all-rac- $\alpha$ tocopheryl acetate)	30.000 mg
Vit B1 (Thiamine hydrochloride)	3.000 mg
Vit B2 (Riboflavine-5-sodium phosphate)	2.000 mg
Vit B6 (Pyridoxine hydrochloride)	4.000 mg
Vit B12 (Cyanocobalamin)	30 mg
Vit C (Ascorbic acid)	20.000 mg
Vit K3 (Menadione sodium bisulphite)	2.000 mg
D-panthenol	10.000 mg
Nicotinamide	40.000 mg
Biotin	22 mg
Folic Acid	20 mg
Choline Chloride	25.000 mg
Alanine	1.440 mg
Arginine	1.800 mg
Aspartic acid	600 mg
Cysteine	60 mg
Glutamic Acid	5.940 mg
Glycine	11.260 mg
Histidine	720 mg
Iso-Leucine	900 mg
Leucine	1.980 mg
Lysine	11.620 mg
Methionine	10.360 mg
Phenylalanine	1.260 mg
Proline	1.620 mg
Serine	1.440 mg
Threonine	900 mg
Tryptophane	80 mg
Tyrosine	100 mg
Valine	900 mg
Sorbic Acid	1000 mg
Glycerol Polyethylene Glycol Ricinoleate	25.000 mg
Sorbitol	3.500 mg
B.H.T	500 mg
Water (carrier)	up to 1 L

### Type of product:

Complementary feed

### Indication:

Useful during periods of peak production, and in case of stress. Amino Vit Forte is a well balanced combination of essential vitamins and aminoacids for poultry complementary feeding

### Dosage and administration:

**Poultry:** 1 liter in 2000 liter of daily drinking water, for 3-5 days. Repeat if necessary. Individual needs may vary, depending on the breed, activity and age. Complete the daily ration with complete feeding. Shake before use.

### Storage:

Store in a cool and dry place (20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use. The product may present precipitate or supernatant, which do not compromise the effectiveness of the product.

### Expiry

# PHYTO G.

## Composition

### Each one L. contains:

Milk thistle (Silybum marianum L.) dry extract* (25% silymarine)	10 000 mg
Turmeric (Curcuma longa L.) dry extract* (95% curcuminoids)	10 000 mg
Capsicum (Capsicum annuum) dry extract* (2,5% capsaicin)	2 000 mg
Anise (Pimpinella anisum) oil	10 000 mg
Thyme (Thymus vulgaris) oil	5 000 mg
Cinnamon (Cinnamomum zeylanicum) oil	1 000 mg
Vitamin E (all-rac- $\alpha$ tocopheryl acetate)	20 000 mg
Sorbitol	50 000 mg
Emulsifier	75 000 mg
Potassium sorbate	1800 mg
Calcium acetate	1750 mg
Citric acid	2000 mg
B.H.T.	150 mg
Water (carrier)	up to 1 L

\*maltodextrine/colloidal anhydrous silica supported.

### ↓ Type of product:

Complementary feed

### ↓ Indication:

Useful in poultry feeding to improve the broiler's performances. The formula is rich in botanical extracts from milk thistle, turmeric and chili pepper, boosted by essential oils from anise, thyme and cinnamon. With sorbitol activity.

### ↓ Dosage and administration:

**Poultry:** 1 liter in 4000 liter of daily drinking water, for 3-5 days. Repeat if necessary. Individual needs may vary, depending on the breed, activity and age. Complete the daily ration with complete feeding. Shake before use.

### ↓ Storage:

# EASYEGG

## Composition

### Each one kg. contains:

Marigold (Calendula officinalis L.) flowers powder	3.000,00 mg
Nettle (Ortica dioica L.) leaves powder	50.000,00 mg
Calcium carbonate	850.000,00 mg
Zinc sulphate monohydrate	1.200,00 mg
Copper sulphate pentahydrate	25,00 mg
Manganous sulphate monohydrate	75,00 mg
Vitamin A (Retinyl acetate)	10.000 UI
Vitamin D3 (Cholecalciferol)	1.000 UI
Dextrose (Carrier)	up to 1 kg

### Type of product:

Complementary feed

### Indication:

Complementary feed in powder form, useful in poultry feeding to improve egg production, shell quality and strength: with vitamins, calcium, nettle and marigold flowers as natural source of lutein.

### Dosage and administration:

**Poultry:** 500g per 25kg of complete feed. Mix accurately with the complete feed. Individual needs may vary, depending on the breed, activity and age.

Complete the daily ration with complete feeding.

### Storage:

Store in a cool and dry place (20-30°C), away from heat and direct sunlight. Do not use after the expiry date. The expiry date refers to the product unopened and properly stored.

Dispose the product responsibly after use.

### Expiry
